

Directions to Quantum Energy Services & Technologies Inc.

2001 Addison Street
Berkeley, CA 94704
(510) 540-7200

from BART...

From San Francisco take the *Richmond train* to the Berkeley Station. As you exit the train turn right and exit the farthest set of stairs. After exiting the station gates immediately turn right and go up the left flight of stairs (the sign says Shattuck/Addison West). You are now on the corner of Addison and Shattuck. Follow Addison Street all the way to the end of the block where Addison meets Milvia Street. Quantum Energy Services & Technologies is in the red brick building on the corner of Addison and Milvia.

From Concord take the *SF/Colma train*, transfer at MacArthur station to the *Richmond train* to the Berkeley Station. As you exit the train turn right and exit the farthest set of stairs. After exiting the station gates immediately turn right and go up the left flight of stairs (the sign says Shattuck/ Addison West). You are now on the corner of Addison and Shattuck. Follow Addison Street all the way to the end of the block where Addison meets Milvia Street. Quantum Energy Services & Technologies is in the red brick building on the corner of Addison and Milvia.

From Richmond take the *SF/Colma train*, *SF/Daly City train* or the *Fremont train* to the Berkeley Station. As you exit the train turn left and exit the farthest set of stairs. After exiting the station gates immediately turn right and go up the left flight of stairs (the sign says Shattuck /Addison West). You are now on the corner of Addison and Shattuck. Follow Addison Street all the way to the end of the block where Addison meets Milvia Street. Quantum Energy Services & Technologies is in the red brick building on the corner of Addison and Milvia.

from Sacramento...

From Sacramento take Interstate 80 West towards San Francisco. Approx 10 miles before San Francisco you will reach Berkeley. It takes about an hour and a half.

Exit at University Ave, staying to the right on the exit ramp. Take a right at the stop sign at the end of the ramp. Follow University east towards the Berkeley hills. After a mile or three on University, take a right on Milvia Street. Proceed to the first stop sign.

Quantum Energy Services & Technologies is located at 2001 Addison Street, on the corner of Addison and Milvia Streets. The red brick building is on the same side of the street as the Berkeley Repertory theater (find the blue banners).

from Walnut Creek...

From Walnut Creek take Highway 24 west towards Oakland/San Francisco. Exit at Highway 13 and stay right towards Berkeley. Follow this road until it becomes Ashby, past the Claremont Hotel. Turn right on Shattuck. Turn left on Addison. Follow Addison Street all the way to the end of the block where Addison meets Milvia Street.

Quantum Energy Services & Technologies is located at 2001 Addison Street, on the corner of Addison and Milvia Streets. The red brick building is on the same side of the street as the Berkeley Repertory theater (find the blue banners).

from Oakland/Oakland Airport...

From the Oakland airport follow Hegenberger road away from the airport. Get on Hwy 880 North. As you near downtown Oakland stay right and follow the signs towards 580/San Francisco. As you enter onto 580 be

sure to stay to the left and go towards San Francisco. Once you are on 580 merge towards the right and follow the signs towards 80 East/Sacramento/Berkeley. Follow I-80 East (it's really going North, but Berkeley has its own sense of the compass) towards Berkeley, passing scenic Emeryville.

Get off I-80 at the University exit. Follow University Ave. East, towards the Berkeley hills. After a mile or three on University, take a right on Milvia Street. Proceed to the first stop sign.

Quantum Energy Services & Technologies is located at 2001 Addison Street, on the corner of Addison and Milvia Streets. The red brick building is on the same side of the street as the Berkeley Repertory theater (find the blue banners).

from San Francisco/San Francisco Airport...

From the San Francisco airport get on Hwy. 101 North towards San Francisco. After passing through SF, stay on the freeway towards the Bay Bridge and I-80 East (don't follow 101-N). Head toward the East Bay (Berkeley, Oakland, and all points East). You will pass Yerba Buena Island and Treasure Island on the bridge. You should get in the left-hand lanes of I-80 when you see the signs for Berkeley and Sacramento. Follow I-80 East (it's really going North, but Berkeley has its own sense of the compass) towards Berkeley, passing scenic Emeryville.

Get off I-80 at the University exit. Follow University Ave. East, towards the Berkeley hills. After a mile or three on University, take a right on Milvia Street. Proceed to the first stop sign.

Quantum Energy Services & Technologies is located at 2001 Addison Street, on the corner of Addison and Milvia Streets. The red brick building is on the same side of the street as the Berkeley Repertory theater (find the blue banners).

Parking...

Street parking is very scarce; it's best to park in a garage. There is one parking garage on Addison between Milvia and Shattuck (this can also be entered from Center Street). Another lot is on Center Street between Milvia and Shattuck and a third garage is on Alston between Milvia and Shattuck. Parking is approximately 50 cents every half hour. The garage on Addison Street is validated.
